# 2014 Update

## The Study

1. Opinion Research Services (ORS) were commissioned by the Essex Planning Officers Association to undertake a Gypsy and Traveller and Travelling Showpeople Accommodation Assessment. Since the publication of the Final Report in July 2014 there have been a number of changes in circumstances in some of the local authorities who commissioned the study. It was therefore felt necessary to update the original findings in light of these changes.

## Corrections and Update

2. Since the publication of the report in 2014, a small number of errors and changes in circumstances have been brought to light which are corrected in this document. In particular the status of pitches on a small number of sites in Colchester and Thurrock have been updated based on permanent planning permission that was granted prior to the study period; additional unauthorised pitches that were not included in the initial study; and a site that was recorded as having permanent planning permission when it only had temporary planning permission.
3. As a result of these changes to the status of pitches and additional unauthorised pitches the various stages of the needs calculations have needed to be updated to arrive at a revised figure of overall need for the Essex Partnership area, and for individual local authorities where appropriate.
4. This report sets out the changes in circumstances and includes updated tables, narrative, and site lists where changes have been made. It also sets out a small number of additional minor changes that have been made to the original report that was published in July 2014.

## Updated Site Status

5. Since the original report was published in July 2014 ORS have received information about a change in planning status for 3 sites in Colchester, and an additional unauthorised development in Thurrock. In summary these changes were:

» **Colchester**

Bridge Side, Turkey Cock Lane, Plot 1 – Granted permanent planning permission for 1 pitch in August 2012

Bridge Side, Turkey Cock Lane, Plot 2 – Granted permanent planning permission for 2 pitches in September 2012

Gwynlian, Kelvedon Road, Tiptree – Granted permanent planning permission for 1 pitch in October 2009

Orchard Place, Vernons Road, Chappel – Granted permanent planning permission for 3 pitches in December 2011

» **Thurrock**

Malvern Road – 5 unauthorised pitches identified that were not included in original assessment current and future need.

The Paddock – 1 temporary pitch recorded as having permanent planning permission

## Changes to July 2014 Report

6. This section sets out the changes that have been made to the July 2014 GTAA Report. on the implications of the changes set out in the section above in relation to pitch provision which is required in the Essex Partnership area currently and over the next 10 years and 15 years in 5 year periods.
7. The overall change for the area as a whole is a net reduction in the need for pitches of 1 from 786 to 785. The net reduction of need for Colchester is 9 from 24 to 15, and the net increase of need for Thurrock is 8 from 104 to 112.
8. This is a result of the following changes when calculating current and future need.
  - » **Colchester**
    - A reduction of current need from households on unauthorised sites of 5.
    - A reduction of future need from households on sites with temporary planning of 3.
    - An increase of sites with permanent planning permission of 7.
    - A decrease of the base for new household formation of 1.
  - » **Thurrock**
    - An increase of unauthorised pitches of 5.
    - An increase of the base for new household formation of 5.
    - An increase of 1 from a temporary panning permission.
9. As a result of the changes set out above the following tables in the July 2014 GTAA Report have been updated. The changes are highlighted in **yellow**:
